TRUCK CENTERS

We are **DRIVEN TO SERVE** all of your transportation needs to help your business succeed.

KEEPING CUSTOMERS ON THE ROAD™ is our focus and our customer promise. In order to deliver on this promise, we are continually challenging every aspect of our business to better serve you through training, technology, facility improvements, extended hours and more. This industry is literally on the move and we strive to be leading the way.

We provide **COMMERCIAL TRUCK SOLUTIONS**, offering everything from new vehicles to the fuel they run on - and everything in between.

My great-grandfather started our business in 1924 and since that time we have been guided by the simple phrase "we treat you like we want to be treated." This approach to customers has served us well all these years and will never change. As a fourth generation family member, it's now my turn to guide our continued growth. I know from my years of experience that taking care of customers, beyond their expectations, is the key to our success.
