

## **Fleet RPM** Realtime Proactive Management

Bergey's exclusive **Fleet RPM** is a turnkey, connected fleet program that maximizes total fleet performance for all makes and models. What makes Fleet RPM different?

<b>Realtime</b>	On-demand fleet updates are delivered to our team 24/7.
<b>Proactive</b>	Critical codes, non-critical codes, preventative maintenance, and warranty work can all be proactively scheduled by our team, including ordering and delivering required parts ahead of the scheduled service.
<b>Management</b>	Our dedicated <b>Fleet RPM</b> team acts as a single point of contact for you to leverage all Bergey's Truck & Tire resources, as well as the national Mack-Volvo dealer network.

Increased Uptime | Improved Fuel Efficiency | Reduced Repair Costs | Extended Equipment Life | Safety  
We are **Driven to Serve** all of your commercial transportation needs.

### **Dedicated Fleet RPM Team**

---

Our **Fleet RPM** advisors connect directly with you, advocating for you to keep your fleet on the move.

- » Centrally located, single point of contact
- » Trained on connected telematics and diagnostic technologies to monitor, schedule work and report fault codes
- » Full understanding of OEM Warranty processes
- » Direct integration with commercial truck parts, service, tire and warranty teams to proactively schedule work and support needs
- » Strong partnerships with OEMs and national dealer networks provide a truly connected experience

## Optional Services Available with Fleet RPM

---

When you work with Bergey's **Fleet RPM** team, you get a partner that knows your fleet and understands what you need to keep your trucks on the road, and we customize a program to meet those needs.

- » Dedicated Support from a trained team
- » Centralized Billing to ease your backend processes
- » Fault Code Management including critical and non-critical
- » Warranty and Recall Management help manage costs
- » Preventive Maintenance with scheduled intervals right for your fleet
- » Parts Replenishment from our extensive OEM and aftermarket inventory
- » Mobile Maintenance to make PMs and simple repairs right at your facility

## Don't just take our word for it.

---

**Fleet RPM** has been tried, tested and continually evaluated by fleet managers who tell us its the support they didn't know they needed until they tried it.

“ There are times when I'm not even aware that there is a problem going on, and I get a call from Bergey's and we can get that problem already in the works to get repaired by the time the driver is done their route which really helps with managing downtime.”

- Paul, Fleet Maintenance Director

“ Prior to **Fleet RPM**, we had to depend on the driver to call in or wait for a truck to come in for service before we knew of an issue. Now we have support not just for emergencies, but general maintenance. They go above and beyond, aiding us whether it is here or further out on a route.”

- Linda, Office & Fleet Manager
