Have you considered a TRAC lease for your fleet?

The following details provide insight regarding the benefits of a TRAC lease, including cash flow savings of over \$63,000 versus traditional financing during the term of the lease.

	<u>TRAC Lease*</u>	<u>Traditional Financing*</u>
Money Down	\$0	\$0
First Payment	90 days in arrears	due at signing
Monthly Payment	\$2,572.38	\$3,302.00
End of 60 Months	\$51,425 residual Options: Trade, Refinance or Sell (today's market value est. at \$76k**)	100% ownership

Trade-Ins accepted. Trade in your used truck(s) to reduce your monthly payments.

TRAC Lease Advantages:

- Cash Flow** Reduce monthly payments by \$729.62 per month, totaling \$43,777.20 for the term of the lease.
- Taxes** TRAC leases are considered an operating lease, thus the monthly payment is potentially 100% tax deductible.
- Equity** If the market value of the truck exceeds the residual loan balance, the remaining value results in asset equity. In the example above, the estimated value after 60 months is \$76,000, resulting in \$24,575 in equity.
- Flexibility** At the end of the lease term, you have the option to sell, trade, or refinance the balance and keep the truck. Deferred payment plans available to eliminate payments according to your business seasonality. No mileage limitations.
- Interest Rates** TRAC loans typically qualify for lower interest rates than traditional financing.
